

## Mathematics Activities

- Number songs - sing number songs such as '5 Little Ducks Went Swimming One Day'

- Count objects - count objects with 1:1 correspondence, for example put fruit in a line and point to each piece whilst saying number names in sequence

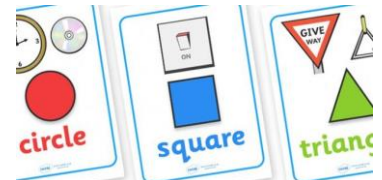

- Count actions - count steps as you walk along the road or stairs, count claps and jumps

- Number hunt- find numerals in the environment, for example on buses, doors, money

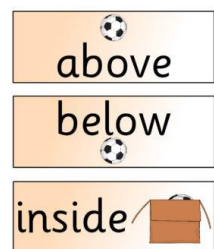

- Shape hunt - find shapes in the environment, for example triangular road signs, circular clocks

- Patterns - identify and create patterns, for example repeating colour patterns - yellow, blue, yellow, blue

- Positional language - put toys in different positions (in, on, under, next to, behind, in front)

- Puzzles - problem solve and complete puzzles, such as matching number and quantity
